Fire Services

Only YOU Can Prevent Cooking Fires

Cooking left unattended is a leading cause of home fires in Ontario.

How do I keep myself and my loved ones safe?

- To prevent cooking fires, you must **be alert**. You will not be alert if you are sleepy, have consumed alcohol, drugs or medicine that makes you drowsy.
- **Always stay in the kitchen while cooking.** If you must leave, turn off the stove.
- Keep anything that burns—oven mitts, cooking utensils, dish cloths, paper towels and pot holders—a **safe distance from the stove.**
- Keep a **proper-fitting pot lid** near the stove when cooking. If a pot catches fire slide the lid over the pot and turn off the stove. Do not move the pot until it has cooled completely.
- Loose-fitting clothes can come into contact with stove burners and catch fire. **Wear short sleeves, tight sleeves or roll them up** when cooking.

Install smoke and carbon monoxide alarms on every storey of your home. Test them every month.

For more information contact your **local fire department.**
