City of Temiskaming Shores Winter Operations Plan | 2024-2025

Although winter weather is often random and unpredictable, city snow removal efforts are not. The city is committed to providing a high level of snow removal service throughout the winter season, with consideration to safety, environmental and budget concerns. Your cooperation in helping to keep streets clean and safe is appreciated.

Winter Maintenance Season | On or about November 1, 2024 to April 15, 2025.

The City will perform winter highway maintenance activities including snowplowing, salt and sand application and storage, snow removal and storage, and sidewalk plowing and de-icing.

Roadway Service Standards

Priority Road Routes

- ◆ A maximum level of approximately 5cm of fallen snow is permitted on the road.
- ◆ Cleanup to be completed approximately 6 hours after end of snowfall.
- ◆ Ice formation prevention starts approximately 8 hours previous to an alleged formation.
- ◆ Treatment of icy roadways expires in 4hours.

Secondary Road Routes

- ◆ A maximum level of approximately 8cm of fallen snow is permitted on the road.
- ◆ Cleanup to be completed approximately 12 hours after end of snowfall.
- ◆ Ice formation prevention starts approximately 16 hours previous to an alleged formation.
- ◆ Treatment of icy roadways expires in 8hours.

Sidewalk Service Standards

Sidewalks are maintained in a snow packed condition. When possible sidewalk machines start later than plowing operations, for snow removal and disposal, to address snow that may be pushed onto pathways during snow plowing operations.

Note | Not all sidewalks are maintained in the Winter. Sidewalks that are not maintained are considered closed for the season.

Priority Sidewalk Routes

- ◆ A maximum level of approximately 5cm of fallen snow is permitted on the sidewalk.

Secondary Sidewalk Routes

- ◆ A maximum level of approximately 8cm of fallen snow is permitted on the sidewalk.

**Curbside Collection
Winter Collection - Safety Tips**

During extreme weather conditions (snowfall, wind blown snow, freezing rain, black ice, etc.) your garbage and recycling collection may be delayed; however, Phippen Waste Management does their best to ensure regular collection remain on time.

Use extra care when using the rollout garbage and recycling bins in slippery conditions caused by snow and or ice.

Avoid placing the bins out the night before and remove bins from the road as soon as possible.

Clear the bins of snow and ice to ensure the lid opens when emptied.

Clear a space for the placement of bins and make the bin accessible and visible to the collector.
